

Thursday, December 14 | 2023, 10:00 – 11:30 P.M. | 2M70

Meeting Called by	Campus Sustainability Office
Focus of meeting	2022-23 Annual Sustainability Report Approval 2023 Waste Audit Report STARS Data collection process Facilities and Operations Update UW's next Sustainability Strategy
Facilitator	Joseph Wasylcyia-Leis
Note taker	Gianna Dusecina
Attendees	(Sustainability Coordinator) (Sustainability Projects Coordinator) (Sustainability Assistant) (Executive Director, Facilities)

Agenda Items

Welcome & Introductions | Review Agenda (5 minutes)
- Roundtable introductions (role and department)

Marshall: wants to know if we could add space to the graph on page 10 of Annual Report – UWinnipeg has far more space but is also using energy far more efficiently

Kyle: Believes report should contains some more real photos

Chris: If the new bins aren't making improvements next waste audit – then it is probably because staff areas are lacking in staff areas and offices.

Rachel: Wants to work with us to improve the UWinnipeg research section. The library is working on a better way to search for such research.

Ian: wants to us to show local procurement on our report to better represent Diversity's sustainability

Marshall: water consumption – covid years affected this – perhaps look at providing an expected projection of water consumption

Navinder: What is the reason for 1990 and 2007's data being missing from the table on page 28 of the Annual report?

Javier: Just curious if there is a standard Canadian reporting guideline for campuses?

Joe: Yes, the standard reporting tool for campuses is STARS

Kyle: there is also the Climate registry, and Portfolio management – which can be used to incorporate data into future reports

Joe: We could possibly look at implementing the same structure 0 G(-6)-6(o)-70(n)-6(s)-75(u)-72(m)-70(p)-6(t)-6(s)-6(m)-70

- Joe to update Council on data collection process and timelines; will highlight credits in need of special attention

- Kyle to provide information on current/upcoming projects

- CSO to review past strategic planning efforts and lead discussion on next steps

Comments/ Suggestions:

It would be good to know the pros and cons of STARS – especially when considering Diversity Foods

It is important to have our own strategy – we are unique in where we reside. We have challenges which are perhaps different from other organizations.

STARS should be used as a basis in our reporting

Students should be involved in the CSC and should be compensated for their time and involvement.

- CSO will circulate digital copies of the Annual Report and the Waste Audit Report ; CSC members will have until early in the New Year to send in additional feedback
- CSO will also send out STARS data collection surveys early in the year.
